NURTURING LEARNERS FOR LIFE!

A HAPPY PLACE OF LEARNING

ABOUT US

Universal Wisdom School is a premium international school offering International Curricula. It is located in Balewadi, Pune, and is backed by the Vishwakarma Purple Educational Trust.

At UWS, we aim to empower students to become global citizens, prepared to face any challenge and committed to making the world a better place. UWS brings the most rigorous international standards and approaches that foster international mindedness, deeply rooted in Indian values.

Vision

Universal Wisdom School, Balewadi, aims to be an educational centre of excellence that prepares students for lifelong challenges and to become vital contributors to making the world a better place. We envision an Institution that strives to pioneer educational methodologies by incorporating cutting-edge technology and contemporary and impactful teaching and learning methods.

Mission

Our mission is to create abundant opportunities to help unfold each student's unique talents and enhance their potential for social, emotional, spiritual, physical, and intellectual growth. We aim to develop compassion and responsibility in our students in contributing to the global society as confident, balanced, and caring individuals. We are committed to creating an environment of harmony where all students feel safe, loved, respected, and accepted to facilitate intercultural understanding and celebrate differences as global citizens.

AN INTERNATIONAL EDUCATION FOR 21ST CENTURY LEARNERS

21st CENTURY EDUCATION

- Holistic learning
- International understanding
- Increasing opportunities
- Skill-based learning
- Design thinking for problem-solving

THE CAMBRIDGE LEGACY

- 10,000+ schools across 160 countries
- 800+ schools in India
- The University of Cambridge formed Cambridge Assessment over 150 years ago

THE IB LEGACY

- 6000+ schools across 160 countries
- 245 schools in India
- The International Baccalaureate Organization was founded in Switzerland in the year 1968

OUR MULTIPLE INTELLIGENCE TREE

UWS's 'Multiple Intelligence Tree', inspired by Howard Gardner, facilitates our mission to bring out the unique talent of each child. Each child has multiple intelligences, which will be honed along with his/ her intellectual capability.

Key Focus Areas

 Naturalistic	 Linguistic	 Logical (Mathematical)	 Spatial
 Physical (Kinesthetic)	 Musical	 Inter-personal skills	 Intra-personal skills

UWS's vision, 'Nurturing Learners for Life', is depicted by the trunk and branches of our multiple intelligences and shows the path for learners and the support they will receive in becoming the best version of who they are.

Individualised Attention

**“Children are not things to be moulded,
but are people to be unfolded.”**

- Jess Lair

Each child is unique and deserves individual attention to be able to perform to the best of his/her potential. We at Universal Wisdom School offer small class sizes and a low student-teacher ratio. This helps in identifying the talents and strengths of each child and allows flexibility of student-paced learning.

Holistic Learning

We believe in holistic learning as an approach that activates the learner's intellect, emotions, imagination and body for more effective and comprehensive learning. We are dedicated to providing the best learning atmosphere, resources and activities that are appropriate for the child to succeed in life.

Cutting-edge Learning Facilities

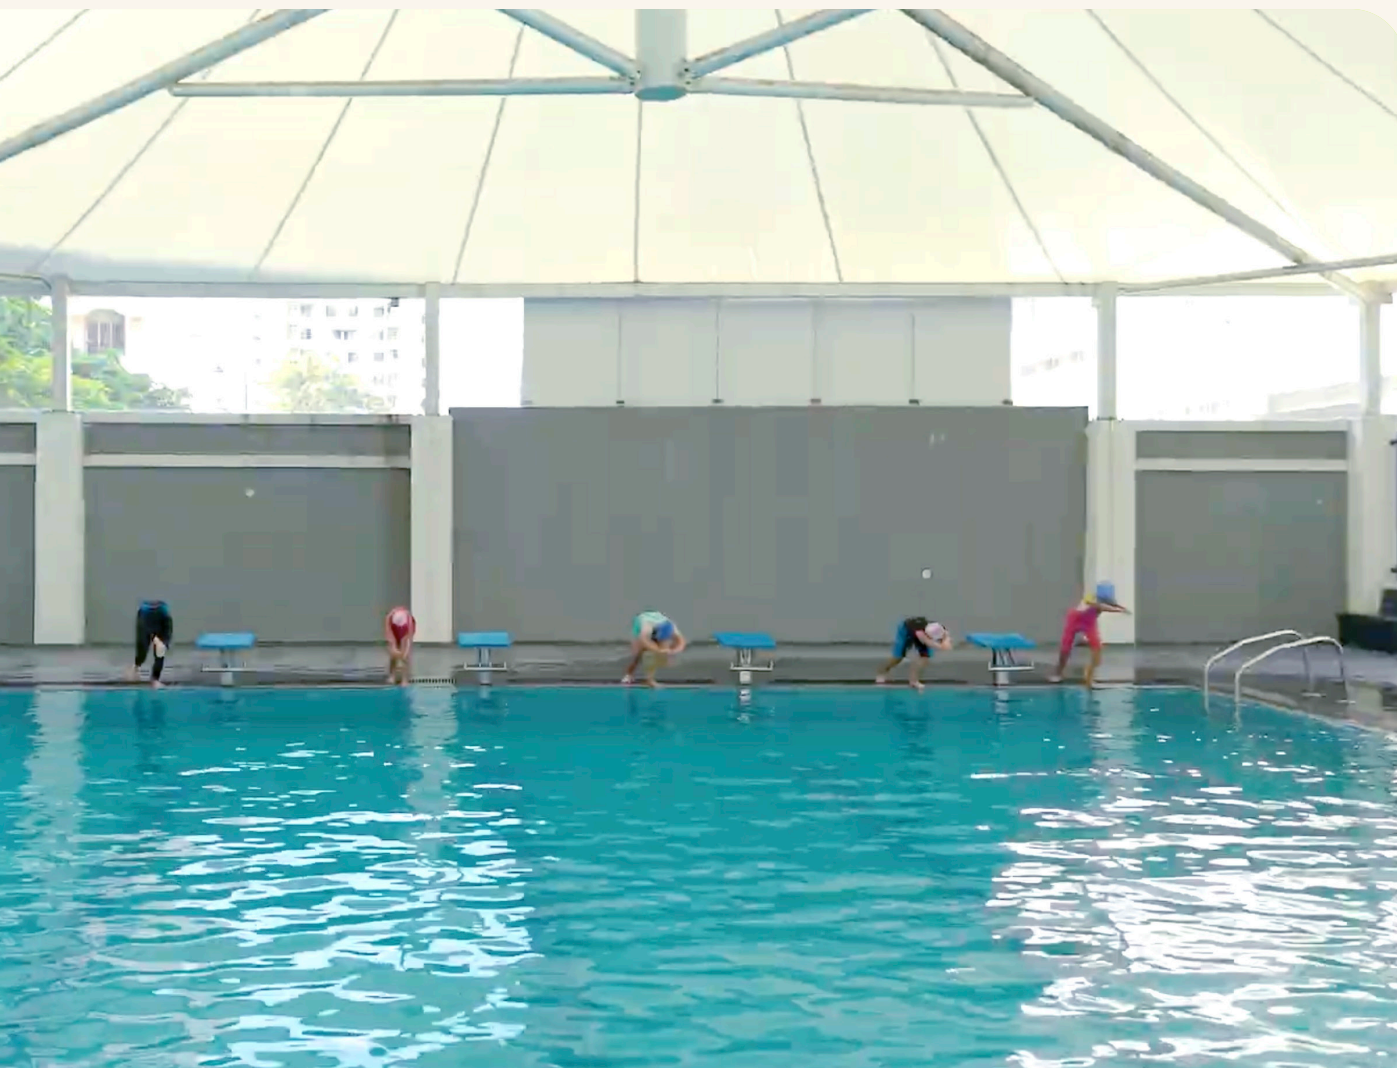

A sprawling, well-ventilated campus and state-of-the-art classrooms with the latest teaching aids, tools and techniques provide an environment conducive to learning. High-end computer labs with laptops, smart-class technology in each classroom, E-library with a plethora of resources make learning fun and innovative.

A Caring Environment

“Happy, calm children learn best.”
- Daniel Goleman

We truly believe that creating an environment of harmony is a prerequisite for seamless learning. At Universal Wisdom School, we never underestimate the power of a few kind words, a caring touch and right motivation to make a difference and make children fall in love with learning.

Cambridge International Education (CIE) Curriculum

Cambridge Primary

Cambridge Primary is an internationally recognised curriculum for learners aged 5–11 years. It provides a strong foundation in English, Mathematics and Science while nurturing curiosity, creativity and confidence in young learners. The programme encourages active learning, problem-solving and critical thinking through engaging, age-appropriate content. With clear learning objectives and a flexible structure, Cambridge Primary supports steady academic progression and individual development. It helps students build essential skills, positive learning habits and global awareness, preparing them smoothly for Cambridge Lower Secondary and future educational success.

Cambridge Lower Secondary

Cambridge Lower Secondary is an internationally recognised curriculum designed for learners aged 11–14 years. It builds strong foundations in English, Mathematics and Science while encouraging critical thinking, creativity and independent learning. The programme offers a broad and balanced curriculum with flexibility to meet students' individual needs and school priorities. Learning objectives are clearly defined to support smooth progression and consistent assessment. Cambridge Lower Secondary develops academic skills, global awareness and confidence, preparing students effectively for Cambridge Upper Secondary, IGCSEs and other international qualifications.

Cambridge IGCSE

Cambridge IGCSE is an internationally recognised qualification for learners aged 14–16 years, valued by schools, universities and employers worldwide. The curriculum offers a wide range of subjects and encourages in-depth understanding, critical thinking and independent learning. With a balanced approach to theoretical knowledge and practical application, students develop problem-solving, communication and analytical skills. Assessment methods include written, oral, coursework and practical components to suit different learning styles. Cambridge IGCSE provides a strong academic foundation and prepares students confidently for advanced study, including Cambridge AS & A Levels and other international pathways.

Cambridge AS & A Levels

Cambridge AS & A Levels are internationally recognised qualifications for learners aged 16–19 years, respected by leading universities worldwide. The programme offers in-depth subject knowledge while developing advanced analytical, research and independent learning skills. Students can choose a broad or specialised subject combination to suit their interests and career goals. The flexible structure allows learners to take AS Level as a standalone qualification or progress to the full A Level. Cambridge AS & A Levels prepare students for higher education, professional success and lifelong learning in a global environment.

International Baccalaureate (IB) Curriculum

The IB Primary Years Programme (PYP) for children aged 3 to 12 nurtures and develops young students as caring, active participants in a lifelong journey of learning.

The PYP offers an inquiry-based, transdisciplinary curriculum framework that builds conceptual understanding. It reflects the best of educational research, thought leadership and experience derived from IB World Schools. The PYP has evolved to become a world leader in future-focused education. The PYP is an example of best educational practice globally, responding to the challenges and opportunities facing young students in our rapidly changing world.

Middle Years Programme

The MYP is a challenging framework for students aged 12 to 16 that encourages them to make practical connections between their studies and the real world.

The MYP is a five-year programme, which can be implemented in a partnership between schools, or in several abbreviated (two, three or four year) formats. Students who complete the MYP are well-prepared to undertake the IB Diploma Programme (DP) or Career-related Programme (CP).

The MYP curriculum framework comprises eight subject groups, providing a broad and balanced education for early adolescents.

The MYP requires at least 50 hours of teaching time for each subject group, in each year of the programme. In the final two years of the programme, carefully-defined subject group flexibility allows students to meet local requirements and personal learning goals.

Research suggests that there are many benefits to choosing the Diploma Programme (DP). The programme aims to develop students who have excellent breadth and depth of knowledge – students who flourish physically, intellectually, emotionally and ethically.

The Diploma Programme (DP) curriculum is meant for students aged 16 to 18 and is made up of six subject groups and the DP core, comprising Theory of Knowledge (TOK), Creativity, Activity, Service (CAS) and the Extended Essay.

Through the Diploma Programme (DP) core, students reflect on the nature of knowledge, complete independent research and undertake a project that often involves community service.

At UWS, we take pride in our commitment to educational excellence and offer globally recognised IB and Cambridge curricula. For more details, we would be happy to assist you. Please reach out to the school on:

PEDAGOGY

Inculcating Love for Learning

We aspire to make children learners for life, and it can only happen if they develop a love for learning at an early age. We help children discover their passions and interests and make learning fun by finding their own learning style.

Experiential & Collaborative Learning

The best way to learn is to “learn by doing” and then reflect on the experience. We give ample opportunities for hands-on and project-based learning. These opportunities are given individually as well as in pairs/groups, so that students through collaboration learn skills like decision making, flexibility, teamwork and communication.

Inquiry-based Approach

We believe the world belongs to the curious. Teachers encourage the students to learn through exploration, inquiry and natural curiosity. They are productively engaged by making real-world connections through exploration and high-level questioning. It is an approach to learning that encourages students to practise problem-solving and reflection.

Design Thinking

Design Thinking encourages students to approach problems with logic and creativity. We teach our students to understand problems deeply and think of creative and practical solutions rather than relying on memorisation. It helps them become more adaptable and resilient to navigate uncertainty with confidence and innovate with purpose.

Global Perspective & Futuristic Mindset

We recognise that it is crucial, as 21st-century learners, for students to have an awareness of local, national & global viewpoints and perspectives. We provide opportunities for developing open-minded learners who grow to respect different opinions, enabling them to develop a futuristic mindset, to live a purposeful life.

OUR STATE-OF-THE-ART INFRASTRUCTURE

- Large, air-conditioned classrooms
- Smart-class technology in every class
- App-based School ERP
- Toddler Learning Management System for online education
- Highly equipped Science labs
- Innovative Robotics and Lego Lab
- Computer lab with latest computers
- Well-resourced library featuring diverse, age-appropriate titles to inspire every reader
- Large AC auditorium with audio-visual equipment
- Exclusive Experiential Learning Area for Pre-Primary students

OUR LEARNING ENVIRONMENT

Academics

- Renowned leadership with decades of academic knowledge and experience
- Highly experienced, qualified and trained teachers
- Teachers undergo continuous professional development as per IB and Cambridge requirements
- Strong focus on educational excellence and experiential learning
- Use of tried and tested methodologies and modern teaching aids
- Value-driven education

Student Safety

- Well-maintained school building with strict hygiene measures in place
- Entire school under CCTV coverage with latest cameras
- Firefighting equipment - fire hydrant systems and fire extinguishers are installed all over the school
- Staff is constantly trained on safety systems and vigilance to ensure our students are always safe
- Regular fire drills and evacuation drills
- Secure drop and pick up service from within the campus

Sports

- Indoor and Outdoor Sports and recreational games
- Indoor gymnasium with play equipment
- Dedicated Pre-Primary play stations and play-way apparatus for experiential learning
- Skating, Basketball, Soccer, Throwball, Volleyball, Badminton, Kho-kho
- Table-tennis, Carrom, Chess, Board Games
- Olympic-size swimming pool

Co-Curricular/Extra-Curricular Activities

- Dedicated Creativity Studio (Art, Craft, Painting)
- Music
- Dance
- Yoga
- Karate
- Speech and Drama
- Workshops /Guest lectures by renowned personnel
- Field trips, Educational Excursions
- Student Clubs - Eco Club, Reading Club, Sports Club

Other Features

- Cafeteria with nutritious and freshly cooked meals
- School bus facility with GPS tracking and lady attendant on all routes
- Full-time school nurse on campus
- Vegetable patch, green spaces

Holistic Approach

- Social Emotional Learning (SEL)
- School counsellor
- Doctor on call
- Nutritionist
